2006 - 2008 | Plovdiv, Bulgaria

🎓 **BS** in **Computer Science**
2002 - 2006 | Plovdiv, Bulgaria

EXPERIENCE

Web Development Immersive at **General Assembly**
June 2015 - Sept 2015 | Boston, US

My previous experience as a software engineer was with desktop and enterprise technologies. I was eager to supplement my professional experience with web technologies. Joining GA's WDI allowed me to get hands-on, full-time web development experience with ***Ruby on Rails, JavaScript, jQuery, Node.js, AngularJS, Handlebars, PostgreSQL, MongoDB.***

Software Developer at **Nemetschek Bulgaria**
June 2011 - Mar 2013 | Sofia, Bulgaria

As part of the international .NET development team, I worked on application used for ***3D visualization*** and data exchange of an architectural/contractual elements. I participated in requirement discussions, prototyping sessions and ***software architecture*** planning. I ***designed and developed algorythms*** and ***user interfaces*** using ***C# 3.5***. The tools used in the development process included ***Visual Studio 2008***, ***MS SQL Server*** and ***Perforce***.

Marketing And Advertising Manager at **PROFILINK Ltd**
Oct 2007 - Apr 2011 | Plovdiv, Bulgaria

As an advertising specialist in a larger scale production company, my responsibilities were limited only to ***assuring best quality*** of collateral and media presence. With time and hard work I grew into a department manager. I had to ***establish effective working relations*** with contractors and advertising agencies, ***plan and manage events***, as well as ***develop the company's market presence***. The part I loved the most was ***working in a team***.

Prepress And Design Specialist at **Impress Bulgaria**
June 2006 - Aug 2007 | Plovdiv, Bulgaria

My main responsibility in a small print company was to prepare advertising materials for the printing machines. Those varied from business cards, full-sized product catalogs, to product packaging and corporate vehicle branding. I used ***Adobe InDesign, Photoshop, Illustrator, Acrobat, Corel Draw and company-specific software*** to keep track of work orders. I worked with clients on a daily basis to meet their visual design expectations and help them achieve their goals.
